Your personal data is required for potential further inquiries.

### Declaration

I hereby grant the University of Mannheim for the duration of the term of copyright the non-exclusive, worldwide right

- to save the work, including the abstract, in electronic form; to make the work, including the abstract, publicly available through the repository by means of digital or other transmission technology; to analyze the work, including the abstract, automatically; and to reproduce the work, including the abstract, as required for these purposes
- to make the work, including the abstract, available to any number of users, and to allow these users to save, print, reproduce and automatically analyze the work, including the abstract
- to convert the work, including the abstract, into other electronic formats, insofar as this is technically required for the uses allowed under this agreement.

The University of Mannheim is entitled to transfer this right in whole or in part to the German National Library and the two state libraries of Baden-Württemberg as the responsible deposit libraries as well as to other disciplinary and institutional repositories, and to pass on the work, including the abstract, to these.

I assure that the aforementioned publication does not infringe any rights of third parties, in particular existing contractual agreements. I will notify the University of Mannheim without delay when I have reason to believe that third parties raise claims or will raise claims with regard to the work. In case of a publication by more than one author, I assure that I am authorized to grant the necessary rights on behalf of the other authors.
